

High Pressure Processing Equipment

Alstom (www.alstom.com):

Design and prototyping of a high pressure intensifier incorporating shear seal technology.

Avure Technologies Incorporated (www.avure.com):

Manufactures both batch presses and continuous systems. Their website offers extensive information about the technology and commercial applications.

Elmhurst Research, Inc (www.elmhurstresearch.com):

Designs and manufactures ultra high pressure vessels for general and food processing uses.

Energy Service Co.

Distributes high pressure processing equipment. Contact Andrew Freeman for more information on their high pressure processing products (1010 Vermont Avenue, N.W., Suite 706, Washington, D.C. 20005; Phone – (202)737-6018; FAX – (202)638-1069).

Engineered Pressure Systems Inc (www.epsi-highpressure.com):

Supplies laboratory and industrial scale high pressure processing equipment.

Kobelco (www.Kobelco.co.jp/index.html):

Offers a whole range of laboratory and industrial high pressure processing equipment.

Mitsubishi Heavy Industries (www.mhi.co.jp/e_hg/e_koatsu/04.html):

Manufactures high pressure food processing test systems.

NC Hyperbaric (www.nchyperbaric.com):

European leader in manufacture of HPP equipment.

Resato (www.resato.com):

Specializes in the design and manufacture of high pressure components, high pressure test equipment, and complete high pressure systems.

Stansted Fluid Power (www.sfp-4-hp.demon.co.uk/):

Manufactures high pressure engineering equipment and systems for a wide range of industrial and research applications.

Stork Food and Dairy Systems (www.fds.storkgroup.com):

Food and dairy systems for dairy, juice and food processing.

Uhde Hockdrucktechnik (www.uhde-hpt.com)

Offers high pressure processing equipment for treating food, pharmaceuticals and cosmetics.
